

Reasoning with Numbers: Mastering the Thinking Skills That Make Math Fun and Easy to Learn (Paperback)

By Brandon Royal

Maven Publishing, Canada, 2012. Paperback. Condition: New. Language: English. Brand new Book. Fine-tune your numerical mindset with a quantitative review that serves as a tool for perceiving probability in a new way. Whether you're a high school student, college student, or a test-prep candidate, this book's wealth of explanations and insights makes it a perfect learning companion. Enjoy the benefits of your own short course in basic probability: *Be able to think conceptually by understanding how key problems "fit" within the main topics of probability, permutations, combinations, and enumerations. *Master basic probability using a simple "flowchart" to identify the correct formulas. *Understand when to "add" probabilities and when to "multiply" probabilities. *Be able to distinguish between events that are independent versus not independent and events that are mutually exclusive versus not mutually exclusive. *Grasp key differences between permutations and combinations and look for key words such as "arrangements" or "selections" to indicate the correct problem type. *Solve tricky permutation problems that involve repeated letters or numbers. *Approach probability problems with a newfound confidence and competency. This book is focused on those thinking skills that are essential for mastering basic probability. Such thinking skills make it much more likely that a...
